

Extractor probe **T-Force**

Description

The MSB T-Force (Tetra Force) calculus extractor probe is constructed of nitinol, has excellent radial force and atraumatic tip. Its handle was developed in an exclusive design that guarantees better handling during the procedure. Use in bladder and ureter.

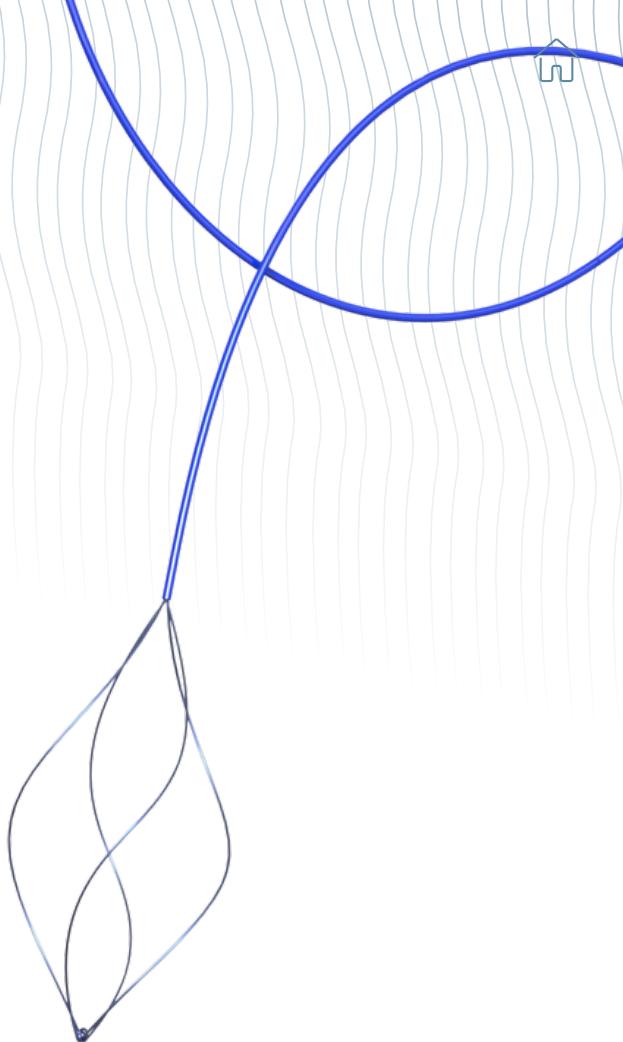

Extractor probe T-Force

Features

- Atraumatic tip - Minimizes the possibility of trauma and bleeding;
- Nitinol basket - The nature of nitinol allows the basket to return to its original shape even after several actuations
