

Speed Cross

Introducer Sheath

Description

The Speed Cross MSB Introducer Sheath is an introducer sheath that allows percutaneous introduction of guide-threads, catheters and microcatheters, offering safe access to the vascular system.

- Indicated for use in peripheral arteries, it minimizes blood loss during diagnostic and interventional procedures. It has the Flexsteer™ braided shaft, which guarantees control and stability, and the Advanced SureSeal™ hemostatic valve, which ensures effective sealing.
